

Gloves - eliminates the need for wristbands.
 Two piece design for comfort and ambidextrous use, non-allergenic.
 Can be grounded to smock or wrist strap ground cord.

- A. 0.060" (4mm) stud to fit 4 ground cords with 1/8" (4mm) spring loaded medical snap.*
- B. Base fabric is 98.5% textured polyester. Conductive fibre filament (RTG: $<1 \times 10^7$ Ohms) made of carbon suffused nylon 6 monofilament spaced every 0.25".

Material will not slough and is safe for use in cleanrooms down to class 100.

Can be washed multiple times in a mild detergent.

- C. Conductive, colour coded cuff (see chart below) interconnects with the conductive fibre and snap providing a true and rapid ground path.
- D. Glove length.
- E. Finger width.

	WOMEN'S				MEN'S
